CO₂ SCRUBBERS

STOREX
 CONTROLLED ATMOSPHERE

-  guaranteed scrub capacity
-  lowest return rate of oxygen
-  energy saving design
-  remote control of all functions
-  DCA READY

STOREX

SAFEGUARDING FRESHNESS

With Storex CO₂ scrubbers you are assured of the best quality fruit. Our scrubbers ensure optimal air quality in the (D)CA room by regulating and removing the CO₂ content and other volatiles. This results in a longer shelf life product with a better taste and texture.

FEATURES

- ample amount of active carbon
- intelligent control of processes
- build-in O₂ and CO₂ analyser
- double vessel system
- well dimensioned valves and tubes
- IoT technology

BENEFITS

- guaranteed scrubcapacity
- DCA ready
- optimal process control
- energy efficient design
- easy to operate
- remote control of all functions

STOREX CO₂ SCRUBBER

+ DCA READY
guaranteed scrubcapacity

+ easy to operate
remote control of all functions

+ optimal process control
energy efficient design

LOWEST RETURN RATE OF O₂ ! DCA - READY

Storex CO₂ scrubbers have a build-in O₂/CO₂ analyzer for optimal process control and minimizing the rate of return oxygen after each scrub action. The Autostore program is easy to operate and provides many handy functions and clear overviews for (D)CA process control.

ENERGY EFFICIENT FOR BETTER QUALITY !

Storex scrubbers remove the CO₂ with the lowest energy consumption and are therefore extremely durable. This is made possible because of the use of the 2-vessel principle which requires a low air flow and by the use of large diameter valves and pipes and the use of highly efficient frequency controlled direct-drive fans. Furthermore, a smart control ensures that the scrub time is minimized. Energy efficiency is important to reduce cooling hours which is good for controlling dehydration and saving expenses. So you can be confident that your investment will be profitable on the long run.

STORE YOUR FRUIT IN THE BEST POSSIBLE WAY WITH STOREX CO₂ SCRUBBERS !

At Storex, we are committed to providing the best solutions for our customers. With our CO₂ scrubbers you can be confident that your fruit will be stored in the best possible way and protected against spoilage. Invest in the quality of your product, with Storex scrubbers you are assured of the best (D)CA control and the highest quality fruit.

WORLD-WIDE PROVEN TECHNOLOGY
